CONCLUSION

All 76 test cases have been successfully executed with a 100% pass rate. The Travel Booking Platform has been thoroughly tested across all functional modules including User Registration & Authentication, Flight Search & Booking, Hotel Search & Booking, Car Rental, Holiday Packages, Payment Processing, Booking Management, User Profile & Preferences, Reviews & Ratings, Notifications & Alerts, and Search Filters & Sorting functionality.

Recommendation: The Travel Booking Platform is ready for production deployment. All critical and high-priority test cases have passed successfully, and the system meets the defined acceptance criteria. The payment processing module has been verified with multiple payment methods and all booking workflows function as expected.
